

SOME SCREENSHOT OF SQL ASSIGNMENT

The screenshot shows the MySQL Workbench interface. The left sidebar displays the 'SCHEMAS' tree with 'assignment' selected. The main editor shows the following SQL code:

```
1 • CREATE DATABASE assignment;
2 • USE assignment;
3 -- create a table student with under mentained structuer
4
5 • CREATE TABLE STUDENT(
6   StdID int primary key,
7   StdName VARCHAR(30) NOT NULL,
8   SEX VARCHAR(8) CHECK (SEX IN('Male','Female')),
9   Percentage int,
10  SClass int,
11  Sec CHAR,
12  Stream VARCHAR(10) CHECK (Stream IN ('Science','Commerce')),
13  DOB DATE NOT NULL
14 )
15
```

The 'Action Output' table at the bottom shows the execution results:

#	Time	Action	Message	Duration / Fetch
10	11:52:06	CREATE TABLE STUDENT(StdID int primary key, StdNam...	StdID int primary key, StdName VARCHAR(30) NOT NULL, S' at line 9	0.00037 sec
11	11:52:51	CREATE DATABASE assignment	Error Code: 1007. Can't create database 'assign...	0.00042 sec
12	11:53:00	CREATE TABLE STUDENT(StdID int primary key, StdNam...	0 row(s) affected	0.026 sec

The screenshot shows the MySQL Workbench interface. The left sidebar displays the 'SCHEMAS' tree with 'assignment' selected. The main editor shows the following SQL code:

```
4
5 • CREATE TABLE STUDENT(
6   StdID int primary key,
7   StdName VARCHAR(30) NOT NULL,
8   SEX VARCHAR(8) CHECK (SEX IN('Male','Female')),
9   Percentage int,
10  SClass int,
11  Sec CHAR,
12  Stream VARCHAR(10) CHECK (Stream IN ('Science','Commerce')),
13  DOB DATE NOT NULL
14 )
15 -- alter table with new field as teacher_id
16
17 ALTER TABLE STUDENT
18 ADD teacher_id INT;
```

The 'Action Output' table at the bottom shows the execution results:

#	Time	Action	Message	Duration / Fetch
11	11:52:51	CREATE DATABASE assignment	Error Code: 1007. Can't create database 'assign...	0.00042 sec
12	11:53:00	CREATE TABLE STUDENT(StdID int primary key, StdNam...	0 row(s) affected	0.026 sec
13	11:59:06	ALTER TABLE STUDENT ADD teacher_id INT	0 row(s) affected Records: 0 Duplicates: 0 Warnings: 0	0.018 sec

Query Completed

-- no of students that are male

The screenshot shows the MySQL Workbench interface. The left sidebar displays the 'SCHEMAS' tree with 'assignment' selected. The main editor shows a SQL query with line numbers 45 to 58. The query is as follows:

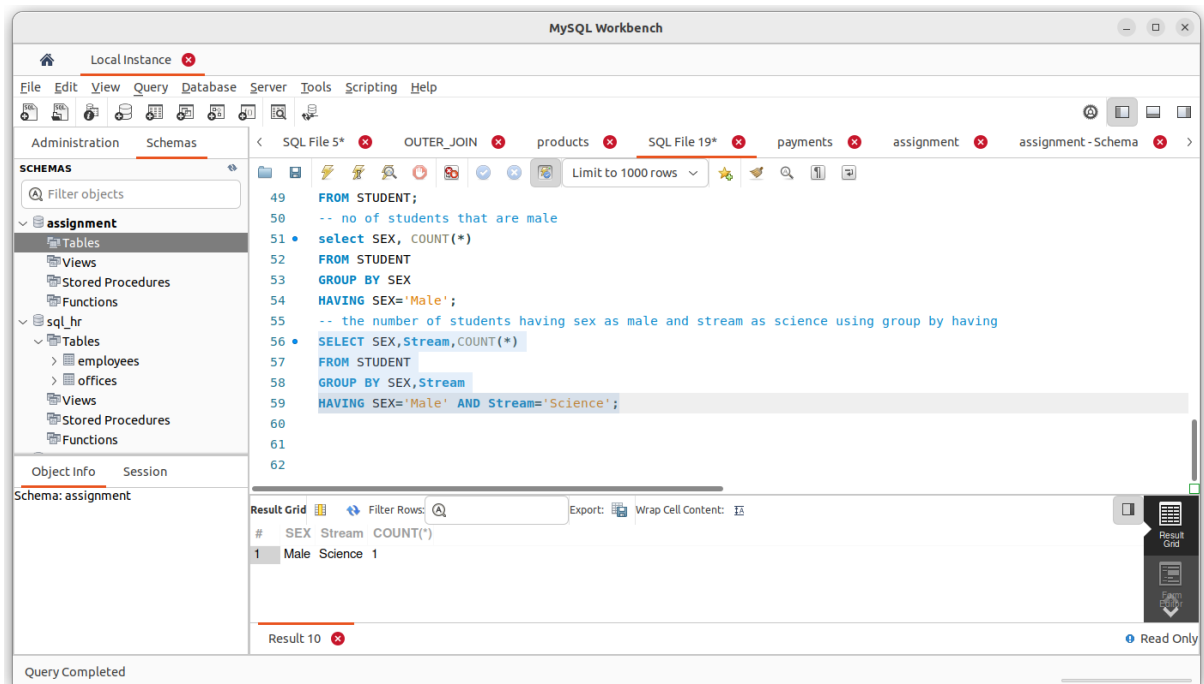

```
45 JOIN teacherdetails t
46 ON s.teacher_id = t.tID;
47 -- find distinct name from table
48 SELECT DISTINCT StdName
49 FROM STUDENT;
50 -- no of students that are male
51 select SEX, COUNT(*)
52 FROM STUDENT
53 GROUP BY SEX
54 HAVING SEX='Male';
55
56
57
58
```

Below the query editor, the 'Result Grid' is visible, showing the results of the query. The results are as follows:

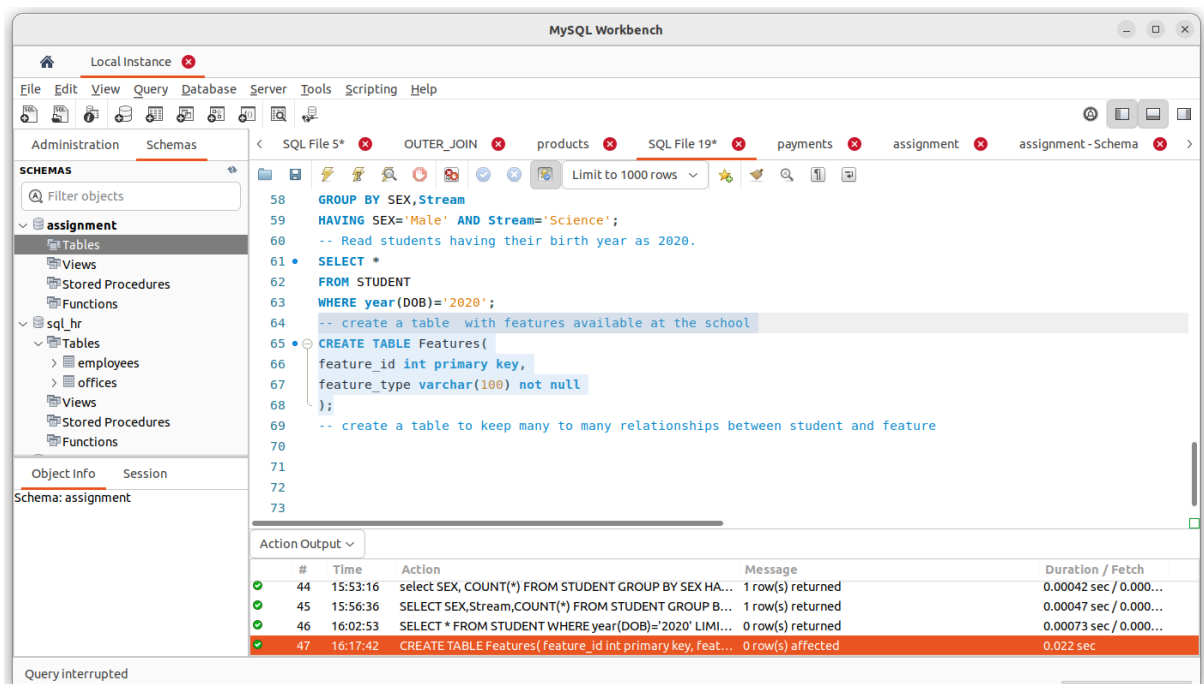

#	SEX	COUNT(*)
1	Male	1

The status bar at the bottom indicates 'Query Completed'.

-- the number of students having sex as male and stream as science using group by having

-- create a table with features available at the school

-- Find a student having 3rd height percentage.

The screenshot shows the MySQL Workbench interface. The left sidebar displays the 'Schemas' tree with 'assignment' selected. The main editor window contains a SQL query:

```
112 -- Find a student having 3rd height percentage.
113 SELECT *
114 FROM STUDENT
115 ORDER BY Percentage DESC
116 LIMIT 1 OFFSET 2;
```

Below the query editor, the 'Result Grid' is visible, showing a table with the following columns: #, StdID, StdName, SEX, Percentage, SClass, Sec, Stream, DOB, teacher_id. The table is currently empty, and a status bar at the bottom indicates 'STUDENT 15'.

At the bottom of the window, a status bar shows 'Query Completed'.
